

Airbag Containers

Automotive / Safety Restraint Systems / Air Bag Systems

Print Date: 2024-06-25

Benefits

- Reliable
- Cost effective
- Heat resistant
- Lightweight
- Function integration
- High flowability enables thin wall designs

Details

Akulon® PA6 is a thermoplastic with high heat resistant properties making it a superior choice for applications such as airbag containers. With a proven track record among OEMs for more than 20 years, Akulon® PA6 allows for 40–60% weight reduction versus metal. Because no metal bolts are required, it is a safer alternative to competitive materials. Akulon® Ultraflow grades offer a 25% cycle time advantage and high flowability enabling thinner wall designs.
