

Bed Springs

Consumer goods | Furniture

Print Date: 2024-07-04

Benefits

- Arnitel® TPC is a reliable solution for bed springs as it allows for more design freedom. Due to its high-flow injection moldable viscosity grades, complex designs can be molded easily. It has excellent colorability and color stability. Arnitel has a broad portfolio in shore D hardness (38D–74D), so the parts can be molded in a different stiffness/hardness for different zones of the bed.

Details

High flexibility in various temperatures; Greener alternative to conventional rubbers; Flexible yet strong
