

Breathable Films for Food Packaging

Consumer goods / Food Packaging

Print Date: 2025-12-05

Benefits

- Highly breathable
- Bio-based alternative
- High-temperature resistance
- Excellent processing characteristics.

Details

Arnitel® is a high-performance thermoplastic copolyester (TPC) that can be used as a breathable film for food packaging. Arnitel® offers a unique combination of flexibility, high temperature resistance and strength, with excellent processing characteristics. Arnitel® also balances the application-specific gas mixture of oxygen and carbon dioxide, as well as the moisture inside the package.
