

CRB Housing

Automotive | Drivetrain | Transmission

Print Date: 2024-03-14

Benefits

- The component is a plastic housing, enclosing the clutch release bearing (CRB). The housing slides over the sleeve and the clutch pedal operates the fork shaft which moves the CRB housing. The housing also encloses grease that serves as lubrication of the CRB.

Details

Weight reduction which leads to a reduced load on the CRB sleeve, which improves lifetime of the sleeve multifold; Smooth operation and reduced clutch as a result of weight reduction; Simplified assembly procedure due to weight reduction
