

Chair Arms

Consumer goods | Furniture

Print Date: 2024-06-21

Benefits

- Ultraflow yields faster molding than standard PA6
- Enables thinner wall designs
- Cost-effective solution

Details

Akulon® PA6 is a reliable solution for chair bases due to its light weight compared to metals. Also, no corrosion protection coating needed. It yields a better surface appearance than PA66 (even at 50% to 60% GF). Akulon UltraFlow PA6 allows for great appearance solutions. Arnitel® TPC is approved for seat suspension. Stanyl® PA46 is approved for bearings and sliding parts. EcoPaXX® PA410 is a 70% biobased alternative.
