

Charge Air Cooler Caps

Automotive / Engine / Cooling / Thermal management

Print Date: 2024-04-16

Benefits

- Long term heat resistant
- Lightweight
- Cost effective
- Fatigue resistant

Details

Stanyl® PA46 is the first high-temperature polyamide and the only aliphatic polyamide in its class, making it an ideal choice for charge air cooler caps. Compared to metal, it is up to 50% lighter, offering better creep/fatigue resistance than PPS and PPA. Stanyl® Diablo offers excellent long term temperature resistance of up to 230° C. Akulon® and EcoPaXX® are up to 50% lighter than metal and more cost effective at the cold side, while Xytron™ PPS allows for super high long term temperature resistance.
