

Clean Air Inlet Ducts

Automotive / Engine / Air Intake

Print Date: 2025-12-05

Benefits

- Lightweight
- Economical
- Reliable
- Durable
- Heat resistant
- Chemical resistant

Details

Arnitel® is a high-performance thermoplastic copolyester (TPC) for clean air inlet ducts that offers a unique combination of flexibility, high temperature resistance, and strength, with excellent processing characteristics. It allows for solutions that are 50% lighter than rubber. Arnitel® TPC is a reliable solution due to its perfect combination of high aging temperature resistance, good flexibility, and chemical resistance. Akulon® PA6 is a lightweight solution that is 40% lighter than metal making it ideal for more rigid duct solutions.
