

Cooking Bag

Consumer goods | Food Packaging

Print Date: 2024-10-10

Benefits

- Soft touch and feel
- Reduces food waste
- Bio-based (nearly 70% is made from the tropical castor bean plant)

Details

Arnitel® TPC is a reliable solution for the manufacturer of cooking bags due to its elasticity, strength and temperature-resistance up to 200°C (392°F). Cooking bags are a great way to prepare food; the only problem is the tendency of proteins to stick to the bag as the oven gets hotter. With Arnitel Eco thermoplastic, food does not stick to the package, improving the dining experience.
