

# Door handle actuator

## Automotive

Print Date: 2024-06-20

### Benefits

- Wear resistance
- High load capacityHigh durability and long life timeLow NVH, high efficiency

### Details

Envalior is a global leader in thermoplastic material science for automotive gears and actuation systems, offering a full portfolio of best-in-class material solutions and global application development support. Because of this commitment to global quality and application development expertise, each year approximately 100 million Stanyl® gears are used in more than 40 million automotive actuators!

### Products

Stanyl® TW341  
PA46

### Speciality products

Enhances zero emission mobility of BEV, improve energy efficiency
