

Faucet mixing valve

Building & construction | Water management

Print Date: 2024-10-04

Benefits

- Lead-free
- Reduced risk of water leakage
- Bio-based (nearly 70% is made from the tropical castor bean plant)
- Yields improved torque and bending strength, even after extended exposure to boiling water
- Absorbs 30% less water and offers superior chemical resistance

Details

EcoPaXX® PA410 is a reliable, sustainable choice for faucet mixing valves due to its superior toughness and improved bonding strength. Q-DWX10 is a 50% glass-fiber-reinforced polyamide. This hydrolysis-resistant grade outperforms PPA materials currently used in the market.
