

Heat Cartridge House

Consumer goods

Print Date: 2024-04-16

Benefits

- Valid drinking water contact certificate
- Warm water 60°C
- Meets the new KTW–BWGL regulations in effect from March 2023
- Drop–in solution in replacing PA66 GF

Details

Envalior offers a range of proven water heater thermoplastic solutions available to manufacturers operating anywhere. Our EcoPaXX[®], ForTii[®] and Xytron[™] solutions are free from potentially harmful leachable substances and comply with drinking water contact regulations observed worldwide, including NSF 61 and KTW–BWGL. Each material minimizes the risk of premature part wear in demanding hydrolytic conditions and simplifies material change programs by cost–effectively replacing lower strength thermoplastics in existing production processes.
