

Lift truck steering wheel

Industrial equipment | Others

Print Date: 2024-06-20

Benefits

- Improved surface appearance
- Lower molded-in-stress
- Reduced warpage
- Less required molding tonnage
- Increased design freedom

Details

Akulon® UltraFlow PA6 is a reliable solution for lift truck steering wheels due to its excellent mechanical properties and surface appearance compared to conventional materials. It is an easy-to-process PA6 that offers up to 80% improved flow and up to 40% reduction in injection molding cycle times. Akulon UltraFlow can be molded into complex shapes and thin-walled solutions due to its high flowability.
