

Power transmission belts

Industrial equipment | Others

Print Date: 2024-11-19

Benefits

- Extruded profiles used in conveying i.e. tiles and other larger components through factories. The strength of Arnitel in such applications is the combination of high temperature resistance and creep, leading to less servicing.

Details

Arnitel® is extrudable in all dimensions; Arnitel offers coloring in nearly any color available; Arnitel offers a wide range of FDA and medical approvals; Arnitel has high creep retention properties
