

Rocker Valve Covers

Automotive | Drivetrain | Transmission

Print Date: 2024-06-20

Benefits

- Lightweight
- Cost effective
- Function integration
- High flowability enables thin wall designs

Details

Akulon® PA6 is a thermoplastic with high heat resistant properties making it an ideal choice for applications such as rocker valve covers. Akulon® PA6 offers 40–60% weight reduction, better NVH performance, and the possibility of function integration versus metal. Akulon® Ultraflow grades allow more cost effectiveness due to 25% cycle time advantage and high flowability enabling thinner wall designs.
