

Smokable Sausage Casings

Consumer goods | Food Packaging

Print Date: 2024-11-07

Benefits

- Highly breathable
- Bio-based alternative that reduces carbon footprint by 50 percent
- High-temperature resistance
- Excellent processing characteristics
- Lowest carbon footprint of PA6 available on the market
- Yields faster moulding than standard PA6
- Enables thinner wall designs.

Details

Arnitel® is a high-performance thermoplastic copolyester (TPC) for sausage casings that offers a unique combination of flexibility, high temperature resistance and strength, with excellent processing characteristics. Akulon® PA6 is a thermoplastic with high heat resistance, making it ideal for applications, such as casings. It's reliable, due to its stiffness and toughness, while a better surface appearance leads to more cost-effective solutions.
