

Snowboard Binding Straps

Consumer goods | Sports & leisure

Print Date: 2024-10-10

Benefits

- High temperature resistance
- Offers a unique touch and feel
- Cost-effective

Details

Arnitel® TPC (thermoplastic co-polyester) is a reliable solution for snowboard binding straps due to its excellent flexibility at various temperature regimes. Arnitel ECO is a bio-based alternative. The material is made from 50% renewable resources, based on rapeseed oil instead of mineral oil. It doesn't require vulcanization to optimize its mechanical properties, which further reduces production costs.
