

Stroller

Consumer goods

Print Date: 2024-04-16

Benefits

- Sustainable plastic solutions (100% biomass balanced or recycled)
- Technical requirements for structural parts could be met

Details

Akulon RePurposed is used in high-end applications in the sports and leisure segment, such as for surfboard accessories. It can also be used in a wide variety of other applications, including furniture and industrial applications. B-MB materials are prime biobased materials what makes it a drop in solution, technical requirements can be met similar to fossil based materials. In this case for example in a cupholder of a stroller. Where more reliable mechanical parts can be produced of B-MB materials to guarantee the quality of a prime material with lower carbon footprint.
