

Tri-clamp assembly

Healthcare / Medical Devices and Accessories

Print Date: 2025-12-13

Benefits

- PA6 GF30 with FCA
- Possibility to buy USP Class VI via our Care portfolio

Details

Medical device manufacturers are working to meet rapidly growing demand for increasingly sophisticated medical devices around the world. At the same time, regulators in the United States, European Union, and other regions are implementing increasingly stringent measures to enhance patient safety and mitigate risk. In this complex environment, advanced material innovation requires both an understanding of next-generation science and emerging medical industry trends. This is why Envallor developed a portfolio of advanced material solutions engineered to meet today's needs as well as growing challenges.

Seller represents and warrants exclusively that on the date of delivery by Seller the product shall be in conformity with the specifications agreed upon. Seller makes no other representations or warranties, whether express or implied.

Seller is not responsible or liable for the design of the products of the Customer and it is the responsibility of the Customer to determine that the Seller's product is safe, complies with application laws and regulations, and is technically or otherwise fit for its intended use. Seller does not endorse or claim suitability of its products for a specific application and disclaims each and every representation or warranty, whether express or implied, in that respect.

Typical values are indicative only and are not to be construed as being binding specifications. Colorants in the product or other additives may cause significant variations in typical values.
