

Washing Machine Timer Knobs

Consumer goods | Appliances

Print Date: 2024-07-03

Benefits

- High resistance to detergent solutions
- Lighter, greener material than conventional rubbers
- High temperature resistance
- Reduces environmental impact and system costs

Details

Arnitel® TPC is a reliable solution for washing machine timer knobs due to its soft touch and feel, as well as its excellent colorability and bonding with styrene–acrylonitrile (SAN) compared to PP–based elastomers. The knobs are a part of the front fascia of the appliance and are designed in multiple colors to appeal to users, so colorability is important.
