

Wheel Speed Sensors

Automotive / Auto Electronics & Electricals / ECUs, Inverters

Print Date: 2024-10-15

Benefits

- EcoPaXX® is 70% Biobased.

Details

EcoPaXX® PA410 allows for reliable solutions due its thermal resistance up to 250°C and better chemical resistance than PA66, its better dimensional stability than PA6 and PA66 due to less moisture uptake; EcoPaXX® PA410 allows for very sustainable solutions to its low carbon footprint (70% biobased); Stanyl® PA46 and Akulon® PA66 allow for reliable solutions due to their high melting point of 295 and 260 °C resulting in no deformation at very high sensor tip temperatures

Products

EcoPaXX® Q-HG6
PA410-GF30

Stanyl® TW241F10
PA46-GF50

Stanyl® TW241F6
PA46-GF30

Akulon® S223-HG6
PA66-GF30

Seller represents and warrants exclusively that on the date of delivery by Seller the product shall be in conformity with the specifications agreed upon. Seller makes no other representations or warranties, whether express or implied. Seller is not responsible or liable for the design of the products of the Customer and it is the responsibility of the Customer to determine that the Seller's product is safe, complies with application laws and regulations, and is technically or otherwise fit for its intended use. Seller does not endorse or claim suitability of its products for a specific application and disclaims each and every representation or warranty, whether express or implied, in that respect.

Typical values are indicative only and are not to be construed as being binding specifications. Colorants in the product or other additives may cause significant variations in typical values.
