

# Arnitel<sup>®</sup> CMB E1–BK

## Copolyetherester

Black Masterbatch, 20% Carbon Black, TPC based

Print Date: 2025–10–04

Envalior offers a complete portfolio of thermoplastic polyester elastomers. These materials, sold under the trade name Arnitel<sup>®</sup>, combine excellent flexibility at low temperatures (down to –50°C) with good heat resistance. Some Arnitel<sup>®</sup> grades are not produced in black color. For those grades, Envalior offers a black color masterbatch Arnitel<sup>®</sup> CMB E1–BK, which is based on an Arnitel<sup>®</sup> carrier and is therefore compatible with all Arnitel<sup>®</sup> grades. Arnitel<sup>®</sup> CMB E1–BK can be used for injection molding and extrusion applications.

PROPERTIES	TYPICAL DATA	UNIT	TEST METHOD
MATERIAL SPECIFIC PROPERTIES	VALUE		
Melting Point	160 – 170	°C	
Carbon Black Content	20	%	
Usage for optimal performance	1.0 – 3.0	%	

Seller represents and warrants exclusively that on the date of delivery by Seller the product shall be in conformity with the specifications agreed upon. Seller makes no other representations or warranties, whether express or implied.  
Seller is not responsible or liable for the design of the products of the Customer and it is the responsibility of the Customer to determine that the Seller's product is safe, complies with application laws and regulations, and is technically or otherwise fit for its intended use. Seller does not endorse or claim suitability of its products for a specific application and disclaims each and every representation or warranty, whether express or implied, in that respect.  
Typical values are indicative only and are not to be construed as being binding specifications. Colorants in the product or other additives may cause significant variations in typical values.
